## GLADSTONE OVATION.

Prince Jerome Napoleon Dead.

SALOONS LET BY ENGLISH PEERS.

Reciprocity Ripples From English Guinea.

Arbitration of the Lobster Question.

Ovation to Gladstone.

LONDON, March 17.—Gladstone received a tremendous spontaneous ovation to-day. He was leaving Charing Cross railroad station for Hastings, when an immense crowd gathered at the depot. The crowd cheered itself hoarse. After Gladstone appeared they broke down the barriers and made a rush for the "Grand Old Man," cheering and waving their hats and handkerchiefs. A number of extra enthusiastic admirers scrambled on top of the cars and yelled and cheered and waived their hats until the train, starting suddenly, threw several on the train to the platform. Two were so seriously injured they had to be taken to the hospital. Several others were badly cut and bruised. Previous to the departure of the train, the Executive Committee of the Radical Association was hopeful of a brilliant triumph for Gladstone and his followers in the coming elections, but the turmoil prevailing in the depot was so great that Gladstone was utterly unable to say a word in reply.

When the train in which Gladstone was traveling stopped at Tunbridge Kent, a large crowd assembled there. Gladstone replied to addresses presented to him. He assured them that whatever measure home rule proposed, its spirit and basis would be unchanged from those of former ones, and that it would be compatible with English honor and would bring peace and contentment to Ireland and life to the Union.

Upon his arrival at Hastings, Gladstone received another ovation. The streets were brilliantly decorated with bunting and the veteran parliamentarian was welcomed in a truly royal style.

Lobster Salad.

MONTREAL, March 17.—A private letter received here from a Government official at St. John, N. B., says of the existing difficulties: "It is known that England arrived at no agreement with France for the settlement of our difficulties, but instead has consented to arbitrate the question of French rights to build lobster factories on our coast, which has never even been claimed by France; and England has, or will, refuse to ratify our commercial treaty with the United States. The day for reconciliation has now passed and a movement is now on foot, not for reciprocity, but for admission into the American Union. We have had too much experience with British injustice to seek more by entering into a Canadian confederation. The people are not alone in this matter, but have the support of many members of both Governments. What is more, it is almost an open secret that a delegation is now preparing to visit Washington to gauge the feeling and see whether terms for this could be brought about."

The Peers' Drink Shops.

LONDON, March 17.—The Blue Book issued by the government to-day discloses the fact that 152 Peers of the Realm are owners of places in which intoxicating drinks are sold. The number of "drink shops" owned by these peers is 1,539. Included in this list is the Right Rev. Richard Lewis, Bishop of Landoff, who, the Blue Book shows, is the owner of two places devoted to the sale of intoxicating liquors.

Sufferings of the Dying Prince.

PARIS, March 17.—A dispatch from Rome says the united strength of four men is required to keep the dying Prince in bed, and that his cries caused by pain are audible in the street.

Rome, March 17.—Prince Napoleon is dead.

Flag of Ireland.

NEW YORK, March 17.—The green flag of Ireland, along with the national and municipal flags, is displayed conspicuously on the City Hall flagstaff. The aldermen held no meeting out of respect to the day.

Kakau's Successor.

SAN FRANCISCO, March 17.—The steamship Australia arrived this morning from Honolulu. The steamer left Honolulu on the 19th inst.

A proclamation was issued by Queen Liliuokalani on February 25th appointing Samuel Parker, Charles Spencer, Herman Widemann and William Whiting as her Cabinet, with Parker as Premier.

The decision of the Supreme Court in favor of the royal prerogative of appointment, also held that besides the methods set forth in the constitution, the Cabinet may be removed by the sovereign upon the death of the royal predecessor. The decision was by Chief Justice Judd, and there was but one dissenting justice.

Colonel Janke and Ministers Widemann and Parker have been appointed Commissioners of the Crown lands. Hon. J. O. Dominis, husband of the Queen, has been made Governor of the Island of Oahu. James W. Robertson has been appointed Chamberlain of the Royal Household; Captain Nowlein, Captain of the King's Royal Guard, and Frank P. Hastings, formerly United States Vice-consul, was appointed Secretary of the Foreign Office.

The Palace and government buildings have been largely stripped of the mourning emblems placed there at the time of King Kalakaua's funeral.

The will of the deceased monarch was admitted to probate in the Supreme Court on March 6th. By the terms of the will Princess Liliuokalani is declared successor to the throne, and failing heirs, she shall cause the Princess Victoria Kaiulani to be declared her successor.

In event of the latter attaining the throne before the age of majority, the Queen Consort Kapiolani shall be regent until the Princess arrives at her majority. In case the latter has no heirs and the royal line becomes extinct, Queen Kapiolani then becomes the next successor to the throne, which descends from her to Princess Poomaikalani, sister of the deceased king, and her heirs, and on the failure of such, then to Prince David Kawanakoa, cousin of Kapiolani. All the deceased monarch's property is bequeathed to Queen Kapiolani and her heirs. On the 9th inst. Queen Liliuokalani publicly proclaimed the Princess Victoria Kaiulani heiress apparent to the throne. Hon. William H. Cornwell, Richard F. Bickerton, Charles B. Wilson, Frank S. Pratt and Joseph Carter have been appointed members of the Queen's Privy Council.

Anna Dickinson Improving.

ALBANY (N. Y.), March 17.—A letter from a sister of Anna Dickinson received by T. H. Brand of this city says: "The doctors have already persuaded Anna to take regular meals and she is beginning to secure natural sleep at night, so there is every hope of her early improvement in health. They say she should go abroad to Carlsbad for a time and then have a Southern winter. If the men and newspapers who say they are going to help her as to funds will really do so, there is no doubt she will yet be able to do good work in the world again."

Reciprocity Ripples.

WASHINGTON, March 17.—The bureau of the American Republic has information that the overtures recently made by the government of Canada to the government of British Guiana for a reciprocity treaty, was rejected by the latter on the ground that an arrangement of this character with the United States is preferred and the government of British Guiana would not enter into any arrangement which would prevent reciprocity with the United States.

Lobsters With French Labels.

PARIS, March 17.—The preamble of the New Foundland bill, which was laid on the table in the Senate to-day, says France has protested repeatedly against the English lobster factories on the French shore as contrary to existing treaties and arbitration, it is added, ought to result in lasting conditions which will satisfy New Foundland.

England Satisfied.

LONDON, March 17.—The papers here commenting on the acceptance by France, of arbitration as a means of settlement of the New Foundland lobster controversy between that country and England, think it satisfactory and just what New Foundland should desire.

A Bishop Visits the Pope.

DUBLIN, March 17.—Archbishop Walsh has arrived in Rome. His visit is made at the request of the Pope, who desires to confer with him in regard to the attitude of Irish Catholic Bishops in connection with political affairs in Ireland.

Mafia Matters.

NEW ORLEANS, March 17.—The Mafia warning received by W. S. Parkerson, who aided the citizen's movement on Saturday, does not make him feel uneasy, although there may be some foundation for it. Parkerson treats it lightly. He knows that if a hair of his head is touched it would result in a terrible punishment of Italians and Sicilians. The result of the events of Saturday is that the Provenzaros and Matrangs are accused of other of being members of the Mafia, and from this some important facts may become known. The Grand Jury investigation charges bribes were given to the jurors in the Hennessey case, and it is understood they have some important clues to-day. The Grand Jury is instructed to make a rigid investigation of the occurrences of Saturday. The records of the registration office in this city show Antonio Marchesi is registered as a voter October 3, 1890. He is one of the four that the Italians claimed was still an Italian subject. No record was found of the other three.

Minnesota Lukewarm.

ST. PAUL, March 17.—Solicitor General Butterworth and Promoter General Handy of the World's Fair Commission to-day spoke before the joint session of the Legislature on World's Fair matters. The Minnesota World's Fair exhibit bill was cut down to \$10,000 by the World's Fair Committee and is now in the hands of the Committee of the Whole, and many are inclined to reduce the amount still further. There is, however, a strong feeling in favor of at least \$100,000.

Silver Anniversary.

RUTLAND (Vt.), March 17.—Commander-in-Chief Venzey has issued a general order for the observance of the silver anniversary of the Grand Army on April 6, 1891. It is ordered that all posts hold on the evening of that day a public commemorative meeting, notice of which must be given to every comrade and special invitations extended to the Sons of Veterans, Woman's Relief Corps and other kindred organizations, and also to citizens generally.

Break in the Levee.

NEW ORLEANS, March 17.—The levee on the right bank of the river three miles above Canal street broke early this morning, causing a crevasse, and the break is now 25 feet wide and 10 or 12 feet deep. The Texas & Pacific Railroad tracks are under water, and the water is up to the cross ties of the Southern Pacific road. The break is constantly widening and getting deeper.

Italian Resolutions.

NASHVILLE, March 17.—The Italians of this city passed resolutions of sympathy with the Italians of New Orleans, and ask the Italian Minister at Washington and Consul at New Orleans to protest to the Italian government against the wilful murder by the lawless mob, and to demand full reparation and punishment of the leaders of the mob.

Nebraska Muddle.

LINCOLN, March 17.—The decision in the Boyd-Thayer gubernatorial contest is indefinitely postponed. It is claimed that two Justices favor Boyd, while three favor Thayer. It is asserted that a scheme to remove one by the two Justices favoring Boyd, by giving him a Federal position, has been unearthed.

TELEGRAPHIC BREVITIES.

Lehmaier & Co. of New York, importers of dry goods, have failed. It is announced to-day that the Sherman statute fund amounts to about \$39,000.

One million dollars in gold bars will be taken in shipment from New York to Europe to-morrow.

Advices from Sorrento, Italy, state the orange and lemon crops were almost entirely destroyed by the recent storms.

The first conversation by telephone between London and Paris was exchanged to-day and was highly successful.

The directors of the Distilling and Cattle Feeding Company of New York declared the regular monthly dividend of one-half of 1 per cent.

The House this afternoon at Hartford, Conn., passed the Judson bill providing for a settlement of the present election difficulty by a vote of 121 to 3.

Sixty thousand dollars worth of property in the business section of Highland was burned last night, and an 8-year-old boy perished in the flames.

The German steamer Italia, hence for Copenhagen and Stettin, returning on account of her shaft having broken, arrived in New York this morning. It was feared she was lost.

Harry Clinton, one of the life saving crew stationed on the ocean beach of San Francisco, was run over and killed by a train this morning. Engineer Sparks surrendered himself, and was charged with manslaughter.

## SACRAMENTO BOODLE.

Sensation in Senatorial Matters.

CHAIN OF EVIDENCE COMPLETE.

Threatening Exposure Stops the Balloting.

Attorney General Refuses Particulars.

Another Sensation.

SAN FRANCISCO, March 17.—The Post's Sacramento special says another great sensation is about to be sprung in the Legislature. It is impossible to detail the exact nature of it, but Attorney-General Hart has evidence which will convict a number of legislators with having received bribes. A document, torn into pieces, has been found and pasted together, which contains a list of names of those who were to receive money at the moment they were to get the total amount, which Mr. Hart says was to be \$21,600 and was to be deposited in a bank in Fresno. Mr. Hart will say nothing more than this, except the whole matter is to be traced; the chain of evidence is said to be complete.

The Evening Bulletin, in its special about an attempt to bribe members of the Legislature, says: "The Attorney General, when asked at noon to tell the story, said: 'The amount is \$21,600. The bank from which the money was drawn yesterday is in Fresno. The names I will not give you. The amount to be paid each member was \$2,000. That is all I shall say.'"

As soon as the discovery was made this morning, Dan Burns sent for Dibble. He was told of the affair and denied it, but asked if something couldn't be done to stop the scandal. Then it was agreed to take one ballot to-day and postpone proceedings until the affair is further investigated. The memorandum in the hands of Hart gives the names of Assemblymen purchased and the amounts they expect to receive. Senators Hisecock and McGowan were present at the interview between Dibble and Burns. Hisecock told Dibble that if boodlers attempted to elect Felton to-day he would spring the affair on the convention. That is what caused the convention to take one vote and then adjourn.

Estee Gaining.

SACRAMENTO, March 17.—Only one ballot for Senator was taken this morning and the convention adjourned until to-morrow noon.

It resulted for Estee, 45; Felton, 28; Blanchard, 2; Johnston, 4; Perkins, 1. The Democrats cast 24 for White. Number of votes necessary to choice, 58.

The expectation that there would be a break in the Senatorial fight to-day, attracted an unusually large and interesting audience in the Assembly chamber. Brusie, who has been absent in the east caring for his injured wife, returned this morning and took his seat in the convention. Robertson (Democrat) of Siskiyou, placed Stephen M. White in nomination. Dibble then rose and withdrew the name of M. H. De Young in favor of Charles N. E. Felton. Fowler then withdrew Wetmore's name in favor of M. M. Estee. Brusie again placed William Johnston of Sacramento in the new addition and the roll was called.

After the roll had been called, Broderick Maher and George Williams, Senators, changed from Felton and Preston to Estee. In the Assembly, Bangham changed from Blanchard to Estee; Bledsoe changed from De Young to Felton, leaving the vote as already given. On motion of Senator Hisecock the convention adjourned until 12 o'clock to-morrow.

Supposed To Be Tascott.

CHICAGO, March 17.—The State's Attorney, Longenecker, is confident the man under arrest at Aberdeen, S. D., is really Tascott, the murderer of millionaire Snell, as a portrait of him has been identified by a man in this city who knew Tascott.

Fire in Rushville.

RUSHVILLE (Ind.), March 17.—Two blocks of the business portion of the city were burned this afternoon, and the entire business portion of the city is threatened with destruction.

NEVADA LEGISLATURE.

FIFTY-EIGHTH DAY.

Special to the GAZETTE.

CARSON, March 17.—The bills passed to-day in the Senate, were: Menary's supplying statutes to high schools; Thompson's street railroad for Reno; Weghel's protection to hotel keepers. In the Assembly the following bills were passed: The repeal of the 12 o'clock law; settling estates; sewerage for Reno; fish protection; Foley's park in Reno; Boyle's \$400 relief bill for Co. B; Williams' (of Elko) bill for disposal of lands to actual settlers; Comins' bill to pay balance due counties for moneys expended in the special election.

The Governor vetoed Weghel's hotel bill.

Deaths in Marysville.

Special to the GAZETTE.

MARYSVILLE, March 17.—John F. Gray was killed this morning by the accidental discharge of a gun which he was putting into a cart in his barn. He leaves a family.

John McTurner, a tailor who has been in the employ of A. F. Meyer, was found dead in a chair last evening in the Washington House saloon. The supposed cause of death was apoplexy. His wife and children in Sacramento have been notified.

Iron Works Assign.

By Associated Press.

CLEVELAND (Ohio), March 17.—The Variety iron works company made an assignment this morning. Liabilities about \$250,000; assets \$150,000. The deed of assignment states that the Board of Directors decided it was necessary in view of the embarrassments of the corporation that it make a general assignment of its property for the benefit of its creditors.

The Wreck at Cuttyhunk.

By Associated Press.

VINEYARD HAVEN (Mass.), March 17.—The United States steam tug Triana, ashore at Cuttyhunk, will become a total loss. The wrecking agent reports the steamer fast going to pieces and the houses and upper works are coming ashore. Nothing has yet been saved from the Galena. The chances are still considered favorable for floating the tug Nina.

Bayard's Opinion.

By Associated Press.

WILMINGTON (Del.), March 17.—Secretary Bayard says he sees no basis on which the Italian Government could claim indemnity for the men killed at New Orleans. There is no discrimination against Italian citizens and American citizens. The case was not parallel to the Wyoming massacre of Chinamen in which indemnity was allowed.

A Label Suit.

By Cable and Associated Press.

LONDON, March 17.—The defendants in the suit for damages brought by Sir Wm. Gordon Cuning against several ladies and gentlemen to the effect that he cheated at cards, deny they have been offering to retract the statement they are alleged to have made, and they add the action will be strenuously fought.

The New Orleans Lesson.

The slaughter of the members of the Mafia in New Orleans has given a magnificent opportunity to enthusiasts on the subject of a new and immense American navy, which they will be sure to improve. Undoubtedly Italy has adroit some moustous ironclads that could knock any of our port cities into rubbish, but there is no likelihood at all that the Italian Government, with which we are upon perfectly cordial terms, will manifest any desire to try her guns at our cost. The Examiner says: When an indemnity to the families of the slain at New Orleans and an apology be demanded, the United States will not hesitate to comply—not because of fear of Italy's ships, for this country feels no uncertainty about the ultimate result of war with any nation, but because our State Department can, of course, make no legal defense of the lynching of men who were legally acquitted in an American court, no matter how unjust that acquittal may have been. The good sense of the American people will undoubtedly cause them to take this view, and support the Administration in acting in accordance with it.

Never the less it is quite evident that the soul of the American people has not been shocked by the irregular execution at New Orleans of the foreign highlanders. It is always to be deplored, certainly, when any community feels compelled to go outside the law to obtain what it deems just, but it is still more deplorable that in nearly every case in which this is done it is found that in that community the machinery of the law has been perverted from its proper purpose and made a shield instead of a whip for criminals.

The people of New Orleans know more about the merits of the cases with which they have dealt so ferociously than the people of any other portion of the country do, and therefore we are disposed to regard them as the best judges of their own conduct. The uprising was not a mere bloodthirsty spasm, nor did it draw its force from the slums. The most reputable and responsible men in the city had the leadership, and the press of New Orleans is unanimous in approval of what was done.

There is an old and trite saying that "every cloud has its silver lining." The star of empire has taken its western course and is quite visible in the horizon about Nevada. That Nevada has seen her darkest days every one will admit. The railroad talk now being indulged in is of good omen, and may lead to something. That California and Nevada would be greatly benefited by a competing line there is no question, and if the Southern Pacific Company do not put their emissaries to work to defeat the bill that passed the Senate Saturday and the House yesterday, there may be hope for Nevada. They have, however, undoubtedly instructed the lobby to defeat the measure subsidizing any company that may be formed to the extent of three thousand dollars per mile, payable out of the taxes such company may pay into the treasury, but nevertheless the bill should pass. We cannot possibly get in a more dilapidated craft than we are now aboard of, and most anything would be an improvement. Nevada is in the hole now, and there can be nothing lost by passing the bill, and much might be gained.

From present appearances Cleveland will be the Democratic nominee for President in 1892. Should the Republicans of the East think proper to put up Harrison as their standard-bearer, then it would be well for the west to consider the Farmers' Alliance candidate. It would do no harm either to teach the two great parties a lesson: That the people will not blindly follow them to their ruin. While the Farmers' Alliance is but a spasmodic flutter of a great number, it shows how suspicious and restless the people are becoming, and the movement furnishes food for reflection. If the gold bugs and monopolists of the east continue to legislate and run the government in the interest of the few at the expense of the many it is time to read them a lesson.

In the Assembly Saturday evening a motion to indefinitely postpone a resolution requesting Nevada's Representatives in Congress to call the attention of the Interstate Committee to discrimination in Nevada was lost. Some friends of the resolution were absent, or it would have passed.—[Carson Tribune.]

That only goes to prove that the GAZETTE is right in its criticism and that the Legislature has been passing laws and resolutions in the interest of somebody besides the people, all winter.

AN OLD-TIME INDIAN TERROR.

An Aged Indian Warrior Who for Ten Years Terrorized the Settlers of Arizona.

"They are talking about the Indian outbreak, says the New York Herald, when one of the party who had been for many years a resident of Arizona Territory, remarked: "Why, down in Arizona we lived for fifteen years in a state of terror on account of a marauding band of Apaches that had things pretty much their own way all this time, in spite of all that the Government troops could do to keep them in check."

"I call to mind particularly Old Victorio. There was a warrior for you. He commanded a band of some two hundred bucks. They were the Chiricahua Apaches, and the murders, robberies and depredations committed by that band during those ten years in which they were on the warpath are almost incredible.

"Old Victorio was nearly ninety years of age when the troubles began. He ruled those redskins with a rod of iron in spite of his years. And he was paralyzed, too, completely paralyzed. He was only able to use his left arm a little, just enough to lift a cigarette to his mouth.

"He was constantly in the saddle, and had to be strapped on like a bale of goods. His hand had the finest ponies to be found anywhere. They would sometimes appear at one place and in less than twenty-four hours you would hear of them at some place one hundred miles distant. All throughout Southern Arizona and Northern Mexico Old Victorio continued his raids until the settlers finally gave up in despair. The Government troops appeared to be utterly powerless in the matter.

"Why, that band of redskins would sometimes plunder a wagon train right under the noses of the troopers, and by the time the latter were mounted and ready to start in pursuit, they would be out of sight. The next day, perhaps, the wires would tell of some fresh depredation committed by the same band in a section of the country over one hundred miles away.

"This old war dog, however, was finally rounded up and shot. He died in the saddle, fighting to the last, and his hand, what was left of it, dispersed. Of course the settlers heard of it and were delighted. Dismay followed, however, when Conchise took the field. This Indian ran things pretty much the same way for five years, and then came Old Geronimo."

SHORT AND PITHY.

WINTER SLIPPERS—The boys who slide on the ice.

"Now, don't borrow trouble, Molly."

"No need to. You keep me well supplied, Silas."

"How ARE the mighty fallen," chuckled the icy sidewalk as the fat man sat down with a dull thud.

CALLER—"Where's your father?" Urchin—"He's shingling." Caller—"The barn?" Urchin—"No, Tommy."

MISS VAN DASH—"Have you met Count Eustace?" Dr. Blank—"Oh, yes, he was my butler for some time."

It is hardly necessary to state that a change from natural gas to soft coal would cast a gloom over the entire community.

The man who sighed for the lost dreams of his boyhood could likely bring them back by eating one of his boyhood suppers.

"Do you think it will rain to-day?" "I don't know." "Say, you ought to join the signal service—they need just such men as you."

An Irish witness excused his running from an opponent by saying: "It is better to be a coward for five minutes than dead all the rest of your life-time."

Hi—"Ya-as. I guess I have the reputation of being one of the young fellows about town who have more money than brains." She—"And yet you are not rich, are you?"

REGARDING RAILROADS.

The longest railroad is the Canadian Pacific.

MEXICAN contractors are importing thousands of Chinese laborers to work on railroads in course of construction in that land.

The railroad cars which traverse Manhattan Island over their hundreds of miles of tracks last year carried the enormous number of over four hundred million of passengers who paid five-cent fares.

A CORRESPONDENT of a railroad publication has found that out of more than four hundred railroad accidents in the United States in 1890 over fifty per cent. were caused by drunkenness, disobedience of plain orders or the most reckless carelessness.

The Great Western Argentine railroad is about to try an experiment of burning crude petroleum in its engines. It has contracted with a Mendoza company to take one hundred thousand cubic meters of crude petroleum at twelve dollars a meter.

DR. CARL EIGENMANN has been collecting fish in San Diego for some years. In making up a collection recently for the British Museum he found a new specimen of herring that has pocket membranes for slipping in the dorsal, pectoral and ventral fins. The scales are large, the eyes have a glassy covering and most of the head is transparent.

A Duel Between Old Women.

A singular duel recently took place in Paris, the home of duellists, between two old ladies, one sixty-eight years old and the other seventy-one.

The more sprightly of the two wounded her opponent seriously after a furious onslaught that would not have disgraced two dragons, and the combatants were separated only by the interference of the police.

**A Pioneer's Experience With Hood's Sarsaparilla.**  
"I am a pioneer in this county, having been here 30 years. Four years ago my little son Elmer became blood-poisoned by impure virus in vaccination. His arm swelled terribly, causing great agony; physicians said the arm must be amputated, and even then his recovery would be doubtful. One day I read about a blood purifier, new to me, and was surprised to learn that it was prepared by C. L. Hood, with whom I used to go to school in Chelsea, Vt. I decided to have my boy try Hood's Sarsaparilla, and was much gratified when it seemed to help him. He continued to grow better as we gave him the Sarsaparilla, and having used 8 bottles is now entirely cured. As Hood's Sarsaparilla has accomplished such wonderful results, I recommend it all I possibly can." JEROME M. SLEEPER, Upper Lake, Lake Co., Cal.

Briggs Medicine Co., San Francisco, Cal.

Genta.—Yours of the 15th received. I shall be glad to assist you in promoting the sale of Dr. Leslie's Special Prescription. Indeed, most of what I have bought of you in the past four years has been given away, myself having been completely cured after a life-time of headache, as I shall gladly certify. Should you write to either Dr. Markell or Dr. Mason, of this place, you may refer to Tod & Crawford, as to the superiority of your Special Prescription. Yours truly, Will Tod.

Price 25 Cents. Sold by J. B. McCullough.
